**have a pleasure
to invite you to the
V BALTC BIOGAS FORUM**

16th– 17th June 2016, Gdańsk

V BALTIC BIOGAS FORUM

The themes of the V Biogas Forum:

biomass utilization for energy production, with focus on the biogas oriented technologies, with a special spotlight on combined heat and power (CHP). Biomass under consideration will include agriculture derived biomass as well as biodegradable municipal waste.

Biogas Forum will provide a platform for networking aimed at support of already existing business connections as well as at stimulation of creation of the new ones, with an overarching goal of exchange of experiences and facilitation of discussions of future, new and common projects and initiatives.

16th– 17th June 2016, Gdańsk

Draft Agenda of V Biogas Forum

(Detailed programme is currently being developed)

16th-17th June 2016

- types of waste, separation and
- recycling technologies
- aquatic biomass for biogas production
- biodegradation of waste and process control
- biogas enrichment and applications
- socio-economic and legal aspects of biogas plants
- RDF utilization, syngas and its applications, technology and legal aspects
