

BALTIC BIOGAS FORUM 17th–18th Sept. 2012

- **The theme of the BIOGAS FORUM will concern the use of biomass** (including agricultural biomass and/or biodegradable municipal waste) for energy generation via the use of biogas technologies, especially when integrated with co-generation systems.
- The event will create **an excellent opportunity to establish business networking** and in terms of cooperation in preparation and/or implementation of investment.

We invite you kindly to participate in the BIOGAS FORUM.

More information will be available soon on our website www.imp.gda.pl/BF2012
