

Bioenergy Promotion 2 Workshop

Bruxelles 26 June 2013

Bjarne Rasmussen, Region Zealand & Tyge Kjær, Roskilde University

Sustainable Bioenergy for The Future Energy System

Dialogue and Panel Discussion

Brief dialogue session

Café style:

- Sit together with the 5 presenters in 5 small groups (3-4 persons)
- Put forward questions
- Identify some key problems and solution elements that need to be addressed

Panel - Key Questions

1. How can you support creation of / transition to the future energy system in Europe?
a.o. with these characteristics:
 - Whole value chain / systemic approach
 - Efficient system - incl. use (=no/low loss) of "surplus" heat
 - EU vs. Global biomass supply
2. How to create the new RE/bionergy based energy system - which also is energy efficient
3. How to make the new system more simple?
 - E.g. by using "Chain of custody"
4. What could /should be done by the EU to promote the future bioenergy systems?
